<p><strong>The department develops professionals having good knowledge,
skills
and attitude in the field of computer application for the betterment of society
and industry</p>
<h3>course under this college</h3><ul>
<br>
```

The Department of Master of Computer Applications was established in 2010. The department trains future educators, researchers and software professionals through a curriculum designed by CUSAT.

The department molds young outstanding students who are academically strong in both theory and practices.

It organizes supplementary programs, which include Technical seminars & Mock Interviews to prepare the student for a

career in the computing field or for graduate study. Special orientation is provided to the staff periodically for updating their strength in latest technological changes.
